SUMMARY

Web and mobile developer specialized in front-end development. I consider myself very passionate for GUI design and I look forward to keep learning skills to improve in it. I love practicing advanced choreographic steps, teaching math, solving Sudoku puzzles, taking pictures and travelling. I am a very responsible, critical thinker and multi-tasker person, good at handicrafts and artistic work.

EXPERIENCE

educarchile: iOS mobile application developer   Mar 2017 – Jul 2017

I experienced what is like to work with a real client and having intensive team work. I learned how to build a native mobile application for iOS using Swift. My work focused on requirement analysis, view designs and dealing with constraints.

Pontifical Catholic University of Chile: Software Engineering teaching assistant   Aug 2016 – Dec 2016

Experience as a product owner of other students, taught good practices for coding in Ruby on Rails.

Software Engineering Class Project: Ruby on Rails web application developer   Mar 2016 – Jul 2016
